EDUCATION

Babu Banarasi Das Northern India Institute of Technology

Bachelor of Technology in Computer Science and Engineering

Lucknow, India

Aug 2023 – Sep 2027

Sheryians Coding School

Full Stack Web Development Bootcamp

Remote

Jan 2025 – Sep 2025

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), HTML5, CSS3, SQL

Frontend: React.js, DOM Manipulation, Responsive Design, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, Microservices, Authentication (JWT, OAuth)

Databases: MongoDB, MySQL, Database Design & Integration

DevOps & Tools: Git, GitHub, Docker, Kubernetes, Postman, VS Code, NPM, Webpack

Core Concepts: Data Structures & Algorithms, OOP, System Design, MVC Architecture, MERN Stack

EXPERIENCE

Full Stack Development Head

Oct 2024 – Present

GeeksforGeeks Student Chapter – BBDNIIT

Lucknow, India

- Lead a team of 15+ developers building full-stack web applications for chapter events serving 500+ students
- Architected and deployed event management system using MERN stack, reducing manual coordination time by 60%
- Conduct weekly technical workshops on web development, APIs, and database design for 50+ participants
- Mentor 20+ junior developers on best practices in React, Node.js, and software development lifecycle

Freelance Full Stack Developer

2024 – Present

Self-Employed

Remote

- Designed and developed a live e-commerce platform for a kurti fashion brand with product catalog, cart, and secure checkout
- Implemented responsive storefront using React.js and integrated payment gateway, reducing client's manual order handling by 80%
- Deployed and maintained production application on cloud with custom domain, currently serving real customers

Web Development Specialist

Sep 2024 – Oct 2024

Algonive

Remote

- Developed 3+ full-stack applications with complete authentication systems using JWT and bcrypt
- Implemented RESTful APIs with Node.js and Express, handling 1000+ daily requests with optimized response times
- Built responsive frontends with React.js, improving user engagement by 40% through enhanced UX

PROJECTS

Moody Music Player | Node.js, Express.js, MongoDB, React, Face API, Cloudinary

2025

- Built full-stack AI-powered music app where users upload songs to cloud storage; AI detects song mood and stores song link with mood tag in MongoDB
- Integrated Face API on frontend for real-time facial emotion detection; queries database to fetch and render mood-matched songs dynamically
- Designed RESTful backend with Express.js handling song upload pipeline, AI mood classification, and mood-based retrieval with optimized DB queries

E-Commerce Platform | MERN Stack, Stripe API, JWT, Cloudinary

2025

- Built full-stack e-commerce application with user authentication, product catalog, and Stripe-powered secure payment integration
- Implemented shopping cart, order management system, and admin dashboard; optimized DB queries reducing page load time by 45%

Real-Time Chat Application | Socket.io, Node.js, MongoDB, React

2025

- Developed real-time messaging platform supporting 100+ concurrent users with WebSocket connections via Socket.io
- Implemented group chats, file sharing, message history, and user presence indicators with scalable backend architecture

LEADERSHIP & ACHIEVEMENTS

GFG Campus Ambassador: Represent GeeksforGeeks at BBDNIIT; organized 10+ workshops training 200+ students in web development

Freelance Delivery: Delivered and launched a production-grade e-commerce site for a live fashion business with real transaction volume

Hackathon Participant: Competed in multiple coding competitions, developing end-to-end solutions under tight deadlines

Open Source Contributor: Contributed to community projects with documentation improvements and bug fixes
